

**BRSD Career Counselling  
FALL 2018**

The BRSD Career Counselling Team of Lynda Kope and Carla Praticante, are looking forward to another year of working with students, families and staff supporting all BRSD students with **High School Plus!**

Your high school student(s) may have already met one of the career counsellors during a class presentation or maybe in a one-to-one meeting. Discussions center around: how to register for *myPass* or *myBlueprint*, high school course choices related to pre-requisites for a variety of post-secondary programs, guidance for how to research scholarships, application processes for post-secondary, transitioning to work and general career counselling as they begin their journey as lifelong learners following high school.

Do you hear questions like, "I have no idea what I am going to do when I'm done high school" or "What courses do I need to get into -----?" To help answer these questions and many more, in October, the BRSD Career Counselling Team is excited to be part of offering the chance for high school students to attend one of three career fairs in the division. These three events are sponsored by the Educational Liaison Association of Alberta (ELAA), a group of more than twenty post-secondary institutions and other organizations such as the Canadian Forces. The three division events are being hosted by Bashaw School, École Camrose Composite High and Daysland School. Please see the new '[HIGH SCHOOL PLUS](#)' website for November dates and times at each school! This website can be found on your school's homepage under the 'Families' tab.

Students, parents and families may also be interested in attending some of the post-secondary events throughout the province. Please review the poster link or search online for important dates for each institution: open house, application deadlines, and a variety of other details. Pre-registration may be required for many of the events, so please check online with the individual institutions for details on how to participate. [ELAA DATES AT A GLANCE POSTER](#)  
NOTE: many post-secondary applications open October 1st for the following year!

We look forward to getting to know the students of Battle River School Division and the school community as we support students with their preparations for 'HIGH SCHOOL PLUS'.

Kindest Regards,  
Lynda Kope and Carla Praticante
