- We are committed to the overall wellness of the students, parents, teachers, staff and the school community as a whole.
- Quality education requires active involvement of the school community through consultation, collaboration and open communication between all

members of that community, including the school, the home and the community at large.

- Bawlf School Council in their advisory capacity can serve as an on-going mechanism for effective two-way communication and consultation between the school and the school community.
- Every voice has value and should be given an opportunity to be heard through supportive processes of engagement and problem-solving.
- Relationships between the school, the home and the community can be strengthened through the Bawlf school council.
- By committing ourselves to these core beliefs, we are creating a community of learners united in helping themselves, others, and their community.
